## **Virtual Conference: The Evidence is Clear: Invest in Prevention**

### **Introduction**

This virtual conference on the International Day against Drug Abuse and Illicit Trafficking, organised by the Vyaktitva Foundation in collaboration with the Education department of Himachal Pradesh.

This year's theme, aligned with the UN's World Drug Day campaign, is:

**"The evidence is clear: invest in prevention."**

The global drug problem is a major public health and social issue. Individuals struggling with addiction are often vulnerable to exploitation and trafficking. This effect is a significant barrier to recovery and a major public health concern. Focus on prevention is a key strategy to reduce the demand for drugs and support individuals in recovery. This year's World Drug Day theme, "The evidence is clear: invest in prevention," highlights the importance of investing in evidence-based prevention strategies. These strategies are more cost-effective than treatment and can help reduce the burden of drug use. Through this conference, we aim to raise awareness and promote effective prevention strategies. This key message is central to the global drug problem.
